## NEW FOR YOU - FROM SODA - 2004

### Facility Management

Pump up the volume Sound player system Plug-N-Play is ideal for adding sound effects and messages to facilities such as miniature golf courses, haunted houses, rides, games, restaurants and gift shops, or any area that requires sound or background effects. The unit is activated by either a built in timer, motion detector or button and plays 60 seconds of digital quality sound and up to four different messages. The unit hooks up to four speakers to spread sound effects over hundreds of square feet. The unit includes a sound player board, plastic housing box, ISD chip and 12v power supply and is delivered installation ready.

R.E.D. & Associates

### Helping hand with covers

Protect gym floors with Covermate gym floor cover handling system, which quickly and easily installs and removes gym floor covers. To install a cover section, one walks it over from one end of the gym to the other. To remove it, one attaches the cover to its own roller and simply winds it back up with the standard handcranks or optional power winder. The system runs on premium quality, Colson brand, ball bearing casters fitted with Santoprene treads that are specifically designed for use on hardwood floors. It is mobile and fits through standard size doors.

## NEW FOR YOU - FROM SODA - 2004

### Picnic pal

Available in both portable and permanent mountings, Leisure Craft 4-seat picnic tables are built to last. The base frame is fabricated out of 2-inch flow-coated galvanized heavy wall steel tubing. The seats and top are built from plastic-coated material, which is flood contact safe. This

high tech finish will not fade, crack or peel. The unit is also available in a 2-seat version.

### Come in from the cold

The Suntube compact heater provides comfort heating indoors for recreational buildings as well as outdoors for dining patios, golf driving ranges and open air structures. The heater consolidates the equivalent of 15 linear feet of radiant infra-red heat into a compact heat exchanger that operates on natural or propane gas. It ships pre-assembled, and it fits standard 2-foot-by-4-foot ceiling panel grids. Multiple units may also be

configured as a total heating system for ice rinks, tennis courts and ski lodges. The heater ensures pedestrian safety by preventing snow and ice accumulation on walkways, ramps and building entrances. An accessory decorative grill cover is available.
